

AVID student of the Month

October

Christina Flinn

Christina Flinn was selected as an AVID student of the month for the October 2014. Multiple teachers voted for Christina because of her stellar performance within their classrooms! Great work Christina! Miss Flinn was recommended to join AVID by her teachers in 8th grade. She went to middle school at Fulname Chapman in Sheridan, Oregon. She is happy to be here at Sprague now and is grateful that she was able to remain a part of AVID. Christina likes the idea of extra support, especially the peer help that she receives through the TRFs (tutorial request forms). These organizational and peer-helping skills carry over to all classes. She may not realize it yet, but these important skills she is developing will help propel her to have success in future college courses!

Currently, Christina is taking AP pre-calculus. She enjoys the rigor levels of AP courses and looks forward to taking AP Human Geography in the future.

Besides AVID, Christina believes credit for her successes in school can be attributed to her yearning to truly understand concepts. She is not satisfied with just sitting through a lecture and silently taking notes. Instead, Christina insists on asking questions and completely solidifying concepts in her head prior to any quiz or test. She does this for her own understanding, but also enjoys helping out other students.

Christina hopes to practice science as she moves onto college. She is currently researching OSU and Eastern Oregon, but has not yet committed to a university. If she keeps up her great attitude and work ethic, attending and completing college will only be a matter of time for Christina. Thank you for being so awesome and positively representing Oly nation!
