

## **AVID student of the Month**

**November**

**David Liddell**

Congratulations are in order for David Liddell, who has been selected as an AVID student of the month for November of 2014! David originally joined AVID in 10<sup>th</sup> grade here at Sprague High School. David claims that he did not want to join AVID at first and his mom made him because he did not receive a 4.0 GPA as a freshman. However, since he has become a member of AVID, he has come to the realization that joining was one of the best decisions he has ever made.

Mr. Liddell thinks there are many advantages to being in AVID, but believes the biggest advantages to being in AVID is the organizational help and the higher level of thinking he has gained through involvement with AVID. David enjoys learning new things and is thankful that AVID gives him the opportunity to expand his horizons. He also says AVID has helped him understand how important school and education truly are.

David is what many teachers would consider a successful student. He believes that he has had success thus far in his educational career because he has been pushed by his teachers. Being held accountable by both teachers and parents, David has a great support system in place to help keep him motivated and on the right path.

Mr. Liddell sees the relationship between an education and a good career. He hopes to never stop learning, but wants to utilize his education to land himself a good career. David's goal is to be the first in his family to attend an Ivy League School. He would like to attend Harvard, but will also apply for California, California State, and Arizona State. He hopes to major in Astronomy when he gets to college.

In his free time, David enjoys studying school work and spending time with family. Thank you for making us proud David! Keep up the great work!
