

How to upload videos to Google Classroom

1. Download the Google Drive and Google Classroom apps on a smartphone or tablet. Both apps are free.

Google Drive

Classroom

2. Take a video with the camera on your device. If possible, use the front-facing camera or select a lower resolution for the video to make the file size smaller.

3. Select the video and press the share button

Android

Apple

4. Share the video to Google Drive. Make sure that you are signed in to your student Sprague Gmail account. This step can take a few minutes.

5. Log in to Google Classroom and select the assignment that you want to complete. Click the add button and upload your video file from Google Drive. After your file is added, press the “turn in” button.
